

Welcome to Nibha Mediratta MD PL. We are honored that you have chosen us as your health care provider. Our goal is to provide the highest quality of care for all our patients in a timely and respectful manner.

In the event that you have not been seen in our office yet, please call and schedule a well-visit/physical as soon as possible. This visit will help us get acquainted and establish your medical records in case of any unforeseen emergencies/illnesses.

We will do our best to provide you with same-day office visits or next day appointments. You will need to bring your insurance card and photo ID with you for each appointment. Please let the staff know if you have had any information changes since your last appointment with us.

For your initial visit we ask that you please bring your medication bottles with you. In most cases we can handle sudden illness, disease monitoring, and your preventative health. Our goal is to address as many of your healthcare needs in our office which saves you time and money.

We do ask our patients for the following:

- Call us within 7-10 days before your prescription is due.
- Please arrive 15 minutes before your appointment.
- Please bring all co-pays and balance due at time of service.
- Please call if you cannot make your appointment. After 3 no show shows you may be discharged from this practice.
- Schedule your preventative health screenings to keep yourself at optimal health.
- Annual exams are required.

We understand that appointments sometimes need to be changed, so we ask that you call in advance if you cannot keep your scheduled appointment.

If you need to reach the physician after hours, you can reach the on-call provider at 352-243-1101 ext 6. Our office hours for patient care are Monday through Thursday 8:00 am to 4:30 pm and Friday 8:00 am to 4:00 pm.

Welcome to our practice and thank you for choosing Nibha Mediratta MD PL for all your health care needs. *If you are under the care of another PCP or believe that your PCP selection was made in error, please contact your insurance to make the necessary changes.*

Sincerely,

Nibha Mediratta, MD
Internal Medicine
